The Wandering Scholar is more than just a travel scholarship. Scholars must participate in online pre-departure and re-entry programs, which requires an ability to meet deadlines, work independently, and be accountable even without face-to-face interaction. Please use this space to explain what has prepared you to meet these expectations. Be sure to give specific examples based on previous experiences in classes, extracurriculars, jobs, enrichment programs, et cetera (250 words max).

A key part of our mission is to encourage Wandering Scholars to play an active role in their international education by completing a documentation project related to their experience. If chosen as a Wandering Scholar, what would the focus of your project be? How would you gather information before and during your trip to complete the project? Who would you present the project to in your home community? How might you share the project online? (500 words max)

In your own words, describe what you think it means to be a Wandering Scholar. (150 words max)
